

MEETING DOCUMENT

Wadden Sea Board (WSB 37)

26 August 2022
Wilhelmshaven

Agenda Item:	5.4 Sustainable Tourism
Subject:	Action Plan on Implementing the WSWH Sustainable Tourism Strategy
Document No.:	WSB 37/5.4/1
Date:	05 August 2022
Submitted by:	NG-ST

This paper presents the draft Action Plan on Implementing the Wadden Sea World Heritage Tourism Strategy.

The 2022 Action Plan establishes a solid foundation that will support implementation of the strategy over the next decade on different levels. Specifically, the plan identifies initial trilateral actions as well as local actions that are essential for further establishing processes, creating ownership, building capacity, and aligning existing efforts to fulfill the UNESCO obligation *to fully consider the integrity and ecological requirements of the property and provide a consistent approach to tourism operations in the property*.

It is a continuation of the work that has occurred over the years and is revisited in the current context; therefore the 2022 Action Plan includes a series of projects/activities already underway at trilateral as well as local level and a set of efforts designed to support all stakeholders through the development of tools and resources.

The following draft is a living document, complemented with (annual) local Action Plans developed iteratively with stakeholder feedback and input incorporated in the trilateral approach along the way.

Proposal: The meeting is invited

1. To **note** the introduction from the NG-ST / preamble by the Editorial Board of the NG-ST;
2. To **discuss** and **agree on** the proposed approach to operationalise the Action Plan;
3. To **endorse** the draft version of the trilateral Action Plan on Implementing the WSWH Sustainable Tourism Strategy;
4. To **note** and **welcome** the draft versions of the local Action Plans on Implementing the WSWH Sustainable Tourism Strategy.

1. Executive Summary

Context

The joint implementation of the strategy on “Sustainable Tourism in the Wadden Sea World Heritage Destination” is an important work theme for the Trilateral Cooperation addressed in the Ministerial Declarations since 2010 and adopted at the Toender Conference 2014. The work contributes to the World Heritage Strategy (TD § 5) and the aims and objectives of the World Heritage Convention. In October 2010 was the Sustainable Tourism Strategy Task Group (TG STS) established by the Wadden Sea Board in order to implement the decision of the Wadden Sea Ministerial Council and to coordinate and support relevant ongoing activities in the field of Wadden Sea tourism and related to communication & marketing.

Since 2013 the respective Action Plan is an important tool for the relevant stakeholders to implement the strategy.

In 2019 the Task Group was transformed into a (permanent) Trilateral Network Group on Sustainable Tourism (NG-ST), with more of a networking platform character. New focus is coordinating and overseeing the implementation of the strategy for sustainable tourism and the action plan in a participatory approach with the relevant stakeholders.

The members of NG-ST mandated representatives from the regions/networks to form an editorial board for the preparation of the Action Plan on Implementing the WSWH Sustainable Tourism Strategy for 2022 - onwards.

The developed new approach & Action Plan provides a prioritized, coordinated and consolidated response to key observations and recommendations from the NG-ST and local levels. It is intended to intensify the cooperation and further enhance the network and create more ownership in the regions.

Input Sought

This Draft Action Plan is submitted to the Wadden Sea Board for information, prior to publication, with an introduction/preamble from the Editorial Board on behalf of the NG-ST.

The updated Action Plan for 2022 – onwards is useful for communicating strategies and establish a clear direction how to implement the strategy on “Sustainable Tourism in the Wadden Sea World Heritage Destination” and complements as well contributes to the implementation of the key topic on sustainable tourism as highlighted by the SIMP.

Presenting this action plan now to the respective audiences is the upcoming task. Therefore, the Editorial Board is seeking a qualified Communication Professional to present the action plan as a communication activity to different stakeholder groups. The aim is to have a visual appealing form of the Sustainable Tourism Action Plan to clearly transmit the objectives of the action plan, list the tasks involved and be able to communicate to different target audiences latest by the Ministerial Conference in November 2022.

Input Received

The Editorial Board integrated in a bottom-up approach the input received from the local levels¹ and made the action plan more tangible and mutual beneficial for stakeholders.

The Action Plan was also presented and discussed at two network group meetings (NG-ST 27/September 2021 & NG-ST 28 / May 2022). Amendments on the draft version and additional input received have also been integrated.

¹ Team Waddenzee Werelderfgoed, NL; AG Weltnaturerbe Wattenmeer Niedersachsen/Fahrtziel Natur D - Lower Saxony; Weltnaturerbe AG Westküste/ Trägergruppe Fahrtziel Natur D- Schleswig-Holstein; Strategyforum (WS Municipalities in DK).

2. The Action Plan 2022-onwards

Introduction from the Editorial Board / Preamble

The Editorial Board² as representative of the Trilateral Network Group on Sustainable Tourism (NG-ST), welcomes the Action Plan on Implementing the WSWH Sustainable Tourism Strategy as a valuable source of guidance.

The internal evaluation³ highlighted the progress made since 2013 in effectively executing core functions of the Sustainable Tourism Strategy, but also revealed several challenges we (still) have to face before Nature conservation and sustainable tourism development go hand in hand across the Wadden Sea World Heritage Destination. In particular, we recognize the improvements and witnessed how stakeholders actively contribute to and benefit from the aims of the World Heritage Convention in protecting the natural values of the Wadden Sea.

We welcome the development of an updated Action Plan in response to the evaluation, and support its objectives, its ambition, and its ongoing implementation. The Network Group Sustainable Tourism (NG ST) has prepared an action plan for the coming years to come. The action plan covers local and joint actions, activities and projects, and it is structured with one vision, the overall aim, 4 outputs and 6 work fields. This is described more in details in the action plan, and in the presentation made by members of NG ST for the Wadden Sea Board, August 2022.

We are pleased to be able to demonstrate the link between plans and operational level. The action plan is an important link between on the one hand the policies and plans, primarily the Declaration, the strategy for sustainable tourism in Wadden Sea World Heritage, the forthcoming SIMP and the institutional structures, especially the Wadden Sea Board, NG ST and local stakeholders, with on the other hand the operational level.

The action plan furthermore:

- Provides an overview of the local and joint activities.
- Ties the World Heritage with tourism activities and increases sustainability.
- Points out an agreed direction.
- Creates a fundament for cross border and multidisciplinary activities.
- Stimulates a Wadden Sea World Heritage identity through concrete activities.

We are on the right trajectory, and moving towards increasingly effective structures, processes and practices:

Ensure local political support

On local and regional level, the action plan is an important tool for local NG ST stakeholders, who present it for the local political level and thereby ensure attention, awareness and support.

Open opportunities

An action plan for sustainable tourism, which is activated in three countries, several regional and local authorities and amongst thousands of local SMTE's, green organisations and other stakeholders is an important tool to open up funding opportunities in e.g., EU and national programmes.

Define roles, responsibilities and mechanisms

Cross-sectoral matters remain challenging. As such, continued focus will be required to define and implement suitably effective processes.

We call on the Wadden Sea Board, to take forward this initiative, and look forward to supporting this work.

Proposal: To note the introduction from the NG-ST / preamble by the Editorial Board of the NG-ST.

² **Editorial board**

³ WSB 32/5.1/5

3. Key findings

The Mandate

UNESCO defines the relationship between World Heritage and tourism as two-way:

- a. *World Heritage offers tourists/visitors and the tourism sector destinations*
- b. *Tourism offers World Heritage the ability to meet the requirement in the Convention to 'present' World Heritage properties, and also a means to realise community and economic benefits through sustainable use.*

The NG-ST envisages that the Action Plan 2022 onwards will take action in that respect. The preamble calls on the Wadden Sea Board “to establish conditions to coordinate and support relevant ongoing activities”.

Nature of the Action Plan

This Plan identifies actions which the Trilateral Cooperation (CWSS), key stakeholder, partners and projects might take to promote the better implementation of Sustainable Tourism Strategy.

For the most part, these actions:

- Use and build upon existing mechanisms and practices; and
- Engage and make use of local, third-party resources

Some actions, however, would require a decision by the WSB ((on trilateral activities) or local authorities (local action plans), in order to provide either the necessary mandate or the necessary financial or human resources or both.

The presented draft plan is action oriented and is meant to be a living working tool that can be used in all levels of the involved parties.

What are the key themes and objectives of the Action Plan?

Continuous Improvement

“Continuous Improvement” is an ongoing effort to improve everything we do: from improving the cooperation between the partners, we coordinate and evaluate relevant communication and marketing activities to define responsibilities, process and parameters for a shared responsibility of governments and stakeholders. For the Action Plan it is primarily about embracing a new way of thinking and working.

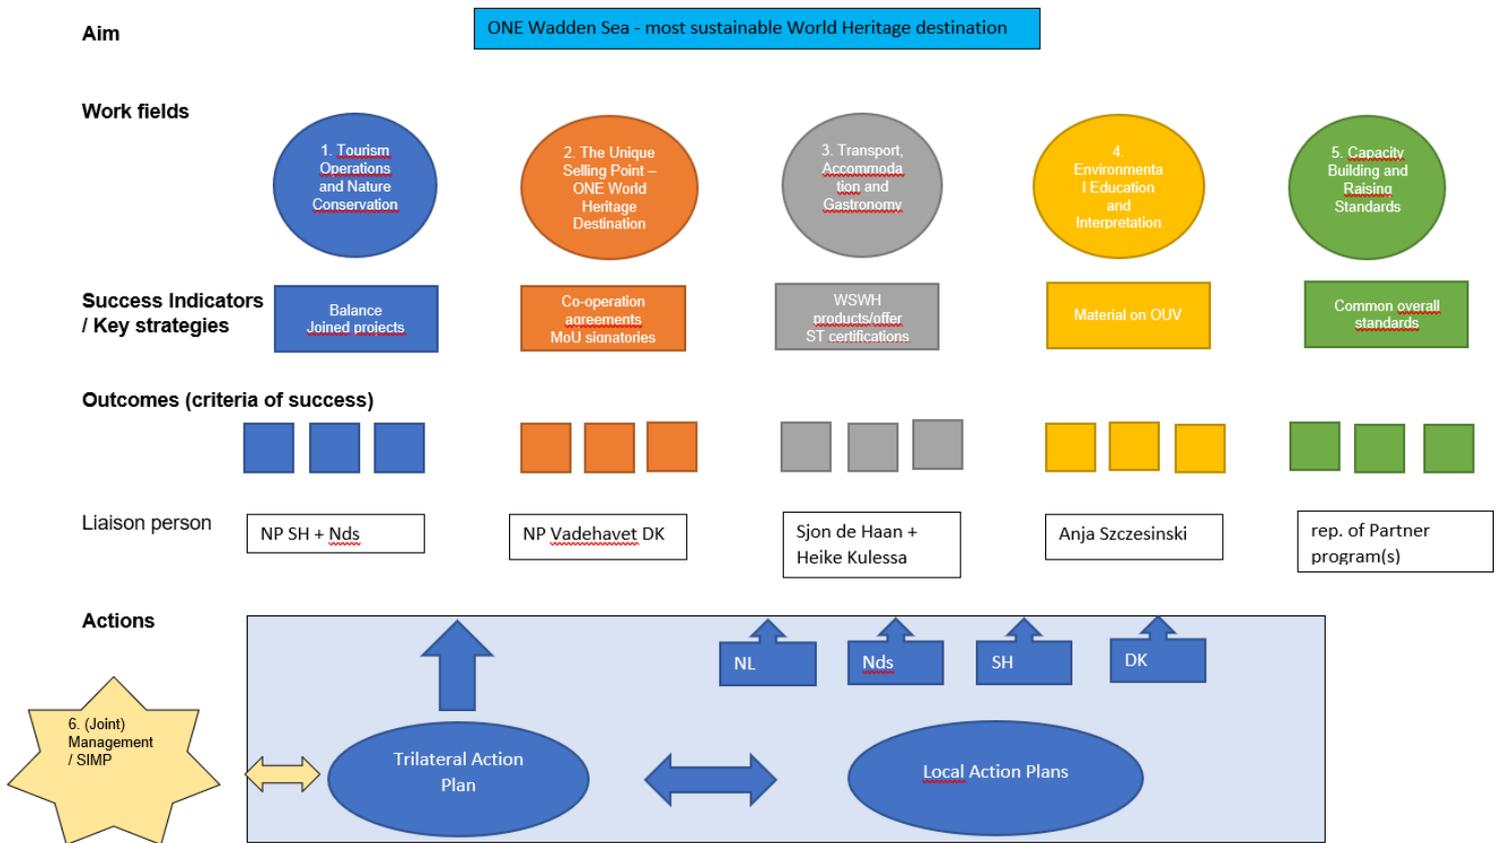

Aim: a long-term transboundary framework for the development of sustainable tourism across the Wadden Sea World Heritage Destination

NEW Vision: ONE Wadden Sea - most sustainable World Heritage destination

Outputs

1. All stakeholders have a transnational understanding and appreciation of the WSWH property
2. Stakeholders take responsibility for and contribute to the protection of the OUV through involvement in tourism management and product development
3. Tourism sector provides consistent communication and marketing and promotes the high-quality tourism offers of the Wadden Sea World Heritage Destination
4. Nature conservation, tourism and local communities benefit from the World Heritage Status

The Action Plan identifies five principal work fields, with a sixth overarching theme relating to the SIMP. This trilateral plan – and its local action plans – lays the groundwork for how we will implement the Sustainable Tourism Strategy, **create** a culture of ownership, **provide** access to opportunities, **allocate** resources strategically and **build** strong partnerships.

What is the progress to date?

Since the first development of the Action Plan in 2013, multiple work streams have made progress towards the overall objectives of the Sustainable Tourism Strategy, with progress updates submitted regularly to the NG-ST.

The two Interreg A projects **Wadden-Agenda 2.0** with project partners in Lower Saxony and the Netherlands & **NaKuWa** with project partners from Schleswig-Holstein and Denmark are strong partners in implementing the Action Plan locally. Just like the national parks in Denmark and Germany. Actions trilateral/North Sea wide are mainly covered by Interreg B project PROWAD Link, lead CWSS.

Also, Stakeholder participation & exchange of communication is organized on local level: Team Waddensee Werelderfoed, NL; AG Weltnaturerbe Wattenmeer Niedersachsen/Fahrtziel Natur D - Lower Saxony; Weltnaturerbe AG Westküste/ Trägergruppe Fahrtziel Natur D- Schleswig-Holstein; Strategyforum (WS Municipalities in DK).

What are the next steps?

The following suggested actions (Trilateral Action Plan) reflect the work that will be delivered trilaterally. However, a lot of activities will be delivered by the key stakeholders in the regions. The main work delivered by each region is included in their respective local Action Plan (especially regarding the involvement of partners, local community, authorities and visitors).

CWSS is seen as overall coordinator, continuously monitoring the implementation (trilateral and local) to ensure compliance with WSWH requirements and taking on the role of a facilitator, who initiates cooperation with the key stakeholders (e.g., DMOs / TMOs, NGOs and national parks). Supported by liaison persons for each work field who build and maintain mutually beneficial (local) relationships, facilitate communications and coordinate local activities.

At the trilateral level (NG-ST), regular interaction is envisaged between the Liaison persons, different stakeholder groups and the CWSSS, to consider and refine proposals in support of the Action Plan.

Wadden Sea Board engagement will be sought on specific components of the Action Plan, as distinct elements and as proposals reach maturity for Board consideration. There is a strong commitment to developing proposals in a consultative and transparent manner, and Board constituencies will be engaged through structured consultation processes on key proposals requiring Board decision.

Proposal: 2. To discuss and agree on the proposed approach to operationalise the Action Plan

4. Draft trilateral Action plan (Annex 1)

Proposal: 3. To endorse the draft version of the trilateral Action Plan on Implementing the WSWH Sustainable Tourism Strategy

5. Draft local Action plans (Annex 2)

Proposal: 4. To note and welcome the draft versions of the local Action Plans

Action Plan(s) on Implementing the Sustainable Tourism Strategy in the Wadden Sea World Heritage Destination

Draft version 02 August 2022 – Includes input from local consultations
Authors: Editorial Board of the NG-ST

Trilateral Draft Action Plan

1. Tourism Operations and Nature Conservation		
Criteria of success	Indicator	HOW
1.1. Stakeholders participate in planning, development, and management of sustainable tourism, taking responsibility for the protection of the OUV.	At all levels (trilateral, national and regional) there is a least twice yearly a meeting attended by all stakeholder (representatives) addressing the subject of sustainable tourism in and around the Wadden Sea World Heritage. Stakeholders come at least from tourism, nature, and government.	
		1.1.1. Establish trilateral cross sectoral working groups coordinating Wadden Sea World Heritage (e.g., Tourism Management at Unesco World Heritage Sites ; Working Group on Biodiversity Communication, etc.)
		1.1.2 Develop and maintain an overview on (tourism) initiatives on marine litter
		1.1.3. Develop and maintain an overview on (tourism) initiatives on climate change adaptations
		1.1.4. Develop and maintain on overview on tourism initiatives which benefit nature

		1.1.5. Maintain and strengthen local WSWH focal points in the regions/countries
--	--	---

1. Tourism Operations and Nature Conservation		
Criteria of success	Indicator	HOW
1.2. Tourism planning in the Wadden Sea Destination is in line with the OUV, minimising the potential conflicts between recreational activities and Wadden Sea values.	Every country has by 2024 zonation plans established and agreed upon by partners.	
		1.2.1. Develop a mutual understanding and agree on issues to be treated among policy makers, experts and stakeholders, cross sectoral.
		1.2.2. exchange experiences and best practices in the Wadden Sea.
		1.2.3. Develop guidelines for Codes of Conduct.
		1.2.4. Support the development of Visitor Management tools.

1. Tourism Operations and Nature Conservation		
Criteria of success	Indicator	HOW
1.3. Tourism impacts on nature and socio-economic values are monitored and results are available to support planning and sustainable development.	regions report every two years on tourism impact	
		1.3.1 develop and agree on acceptable impact models for tourism and WSWH
		1.3.2 collect data on tourism (Quantitative and qualitative) and WSWH in a coordinated way

1. Tourism Operations and Nature Conservation		
Criteria of success	Indicator	HOW
1.4. visitor information (on OUV) is widely available	90% of our guests know about OUV and World Heritage	
		1.4.1. Provide guidance and support to focal points (e.g., via Brandspace)
		1.4.2. Foster the exchange of good practices trilaterally

2. The Unique Selling Point – ONE World Heritage Destination		
Criteria of success	Indicator	HOW
2.1. The WSWH brand is widely used as starting point for the development of quality products, services and facilities.	By 2025 all stakeholders directly operating in the Wadden Sea and 20% of tourism entrepreneurs operating around the Wadden Sea use tools or logo from the WSWH Brand.	
		2.1.1. strengthen and establish WSWH brand: Create and coordinate easy to use tools
		2.1.2. establish a structure (analogous to an organisational structure) with tasks and responsibilities for brand communication from the trilateral to the national to the regional level. Facilitate the use of WSWH brand locally
		2.1.3. encourage partners to use WSWH logo in their communications
		2.1.4 Provide knowledge how to include WSWH in Social media content (e.g. Hashtag #happywaddensea)
		2.1.5 Communicate activities trilaterally (newsletters, SoMe, website)
		2.1.6 challenge new projects on how they can connect to the WSWH brand

		2.1.7 share examples of good projects that connect to the WSWH brand
		2.1.8 review brand guidelines with specification on the use by partners

2. The Unique Selling Point – ONE World Heritage Destination

Criteria of success	Indicator	HOW
2.2. WSWH destination is known as a sustainable tourism destination	By 2025 the Wadden Sea is part of the Top 10 most sustainable tourism destinations (e.g., ITB Green Destination Award).	
		2.2.1. conduct feasibility study to develop preconditions for a transnational sustainable destination approach
		2.2.2. Facilitate the participation in a global certification program (e.g., Green Destination)
		2.2.3. Explore the possibility of getting recognition by the Global Sustainable Tourism Council (GSTC)

2. The Unique Selling Point – ONE World Heritage Destination		
Criteria of success	Indicator	HOW
2.3. A sustainable 'Wadden Sea World Heritage Destination' marketing concept used by partners– showing the value of existing regional brands and adding value and synergies to create further benefits.	75% of the partners around the Wadden Sea use the World Heritage brand as part of their own brand	
		2.3.1. define tasks/responsibilities about the marketing of the brand. Facilitate cooperation with the DMOs / TMOs and national parks.
		2.3.2. upload, organise, manage and distribute WSWH brand info and files from one centralized online location (Brandspace)
		2.3.3. provide communication material and examples (texts, photos, podcasts, videos, style guide)
		2.3.4. explore the possibility of providing a digital watt experience (audio guide) expandable
		2.3.5. intensive communication with e.g., targeted "hands-on workshops" that are practice-oriented and help the stakeholders to integrate the materials into their own communication media.

2. The Unique Selling Point – ONE World Heritage Destination		
Criteria of success	Indicator	HOW
2.4. Partners are aware of the market development and potential for sustainable tourism in WSWH	10% of the registered partners download at least once a year a market update from brandspace.	
		2.4.1. Facilitate regular visitor survey's for WSWH to get comparable data
		2.4.2. compile monitoring data on tourism in WSWH
		2.4.3. get good data on tourism which is comparable
		2.4.4. regularly update information on market developments for WSWH

2. The Unique Selling Point – ONE World Heritage Destination		
Criteria of success	Indicator	HOW
2.5. Consistent World Heritage communication and promotion of high-quality products for the entire destination.	Outreach on media and social media (e.g., yearly 100 different messages published on the socials aimed at the general public (for now Instagram & Facebook) which have a total reach of at least 100.000 views and 10.000 likes / reactions)	
		2.5.1. manage WSWH social media channels and use common Hashtags
		2.5.2. organize regular meetings with focal points on communication (social media workshop etc)
		2.5.3. publish trilateral calendar of WSWH events
		2.5.4. set up training on communications and storytelling for strategic WSWH ambassadors (with tools)

3. Transport, Accommodation and Gastronomy		
Criteria of success	Indicator	HOW
3.1. Improved partnerships and cooperation between tourism entrepreneurs and the nature conservation sector.	75% of entrepreneur active in the World Heritage have / signed a partnership agreement with a nature organisation, national park or WSWH	
		3.1.1. Facilitate exchange experience and best practices in the WSWH
		3.1.2. Define a goal how many partnership agreements should be reached by 2025 - to be further defined / concrete aim to measure this 3.1.
		3.1.3. Develop and activate internal networking tool (e.g., via Knowledge Exchange platform)
		3.1.4. explore the possibility of a Mentoring Programme – from experiences to less experienced stakeholder

3. Transport, Accommodation and Gastronomy		
Criteria of success	Indicator	HOW
3.2. Efficient, sustainable public transport for all visitors to and within the Wadden Sea World Heritage Destination with clear and accessible information.	All destinations have & provide information about how to reach and travel within the destination in a sustainable way	
		3.2.1. compile best practices of sustainable transport in the WSWH destination
		3.2.2. Promote best practices on WSWH webpage

3. Transport, Accommodation and Gastronomy		
Criteria of success	Indicator	HOW
3.3. Existing transport systems and infrastructure are linked, including e-mobility and hiking and biking facilities.	Every destination has transfer points where different modalities come together.	
		3.3.1 compile best practices
		3.3.2 Coordinate exchange to create positive emphasis

3. Transport, Accommodation and Gastronomy		
Criteria of success	Indicator	HOW
3.4. Regional, sustainable quality products, services and facilities in transport, accommodation and gastronomy are available, which can also contribute to the reduction of energy, water consumption and carbon emissions.	All partners improve every two years the sustainability of their offer	
		3.4.1. Facilitate partners to engage in co-creation
		3.4.2. Stimulate exchange visits of entrepreneurs to experience sustainable products / provide network contacts
		3.4.3. Set up a qualitative follow up for each region's action plan

4. Environmental Education and Interpretation		
Criteria of success	Indicator	HOW
4.1. Partners have access to educational resources and activities focusing on communicating and educating the OUV	Educational materials are available on brandspace	
		4.1.1. Develop joint education materials through IWSS
		4.1.2. Integrate IWSS materials online available into existing/planned platforms
		4.1.3 create an overview of available communication materials (stories etc) focusing on One Wadden Sea World Heritage

4. Environmental Education and Interpretation		
Criteria of success	Indicator	HOW
4.2. Partners / strategic Ambassador offer authentic nature experience in cooperation with WSWH	75% of the partners active within WSWH, and 10% of those around the WSWH area have activities that explain the OUV	
		4.2.1. support partners in including WSWH in their experiences
		4.2.2. make information material available for focal points

4. Environmental Education and Interpretation		
Criteria of success	Indicator	HOW
4.3. Stakeholders have good knowledge and appreciation of the Dutch-German-Danish WSWH .	Partners of WSWH (yearly) participate in a training about WSWH that includes trilateral aspects	
		4.3.1 organize annual Wadden Sea World Heritage Day
		4.3.2. develop and run a communication plan for WSWH day.

4. Environmental Education and Interpretation		
Criteria of success	Indicator	HOW
4.4. Partners communicate the value of the OUV and its visibility to stakeholders, locals and guests.	Visibility - comparison over the years	
		4.4.1. provide standard texts and pictures for partners (e.g., brandspace)
		4.4.2. Create infographic

5. Capacity Building and Raising Standards		
Criteria of success	Indicator	HOW
5.1. Stakeholders are aware of the social, economic and conservation benefits of Wadden Sea World Heritage brand.		
		5.1.1. define clear benefits of belonging to the network
		5.1.2. develop or extend annual exchange programmes for stakeholders as regular offer
		5.1.3. conduct studies on socio-economic impact of responsible tourism

5. Capacity Building and Raising Standards		
Criteria of success	Indicator	HOW
5.2. Products and offers from the WSWH destination are sustainable and have common high standards	20% of the offers available in the destination fulfil the criteria set up by WSWH	
		5.2.1 Provide criteria

5. Capacity Building and Raising Standards		
Criteria of success	Indicator	HOW
5.3. Stakeholders have capacity and tools to manage tourism efficiently, responsibly and sustainably.	Stakeholders participate in a trainings about WSWH and sustainable tourism (mandatory for partners)	
		5.3.1. organise / set-up a (trilateral) inventory on WHS training courses and -material for stakeholders
		5.3.2. coordinate exchange programmes trilaterally and provide support on contents

6. (Joint) Management / SIMP		
Criteria of success	Indicator	HOW
6.1. The implementation of the Sustainable Tourism Strategy and Action Plan are advanced through trilateral cooperation.	National focal points (liaison persons) for WSWH have sufficient time to ensure cross border cooperation and transfer of knowledge to WSWH partners	
		6.1.1. Maintain and increase the support of visitors, local entrepreneurs, destination marketing organizations and other stakeholders in the tourism sector for nature conservation
		6.1.2. Provide consistent information for the site, through visitor centres and partnership programmes.
		6.1.3. support the Partnership Hub and facilitate the link to regional and local programmes

6. (Joint) Management / SIMP		
Criteria of success	Indicator	HOW
6.2. Site managers are connected to the Sustainable Tourism Strategy.	Have a set of policies which support tourism activities by communicating boundaries and expectations, establishing a culture of compliance within the WSWH.	
		6.2.1. Facilitate to connect site managers to the Sustainable Tourism Strategy dependent on their specific competencies in the three countries.
		6.2.2. Set-up an exchange on the effectiveness of the current national/local policies on sustainable tourism.

6. (Joint) Management / SIMP		
Criteria of success	Indicator	HOW
6.3. Initiatives for cross-border cooperation that foster the nature conservation aspect of sustainability in tourism are strengthen.	at least 3 cross border projects are implemented or approved until 2025	
		6.3.1. Activate and support partners to work together, to mobilise resources for national, regional, trilateral, (international?) and cross-sectoral collaboration
		6.3.2. investigate possibilities of donations/funding of projects together with tourism sector

6. (Joint) Management / SIMP		
Criteria of success	Indicator	HOW
6.4. A transnational market research concept and visitor survey for the Wadden Sea World Heritage Destination.	Regularly visitor surveys are done in the different WSWH destinations. (Suggestion: at least every two years) A standard market research concept is available and partners and WSWH commit to use it by 2025.	
		6.4.1. develop a trilateral monitoring and assessment approach for tourism data (TMAP, QSR)
		6.4.2 support exchange of best practice on regional market research concepts and visitor surveys
		6.4.3. Develop and compile basic tourism data set to be used in the region to calculate impacts (socio-economic impacts, impacts on nature values) considering EU /UNWTO definitions.

6. (Joint) Management / SIMP		
Criteria of success	Indicator	HOW
6.5. Sufficient staff capacity is available to ensure an effective protection of the World Heritage Site.		
		6.5.1. take stock of the experience of staff already involved; coordinate activities with a view to encourage management of cross-cutting matters.
		6.5.2. Maintain and strengthen local WSWH focal points in the regions/countries
		6.5.3. exchange experiences and best practice examples in the Wadden Sea. Cooperation with UNESCO and other international organisations (22)

Annex 2

Local DRAFT Action Plan – Denmark

Criteria of success	Indicator	HOW	Taking care of activity: Organisation	Programm/Project/ if applicable
1. Tourism Operations and Nature Conservation				
NEW: 1.1. Stakeholders participate in planning, development and management of sustainable tourism, taking responsibility for the protection of the OUV.	Number of partners	1.1.1. Establish regional cross sectoral working groups coordinating Wadden Sea World heritage	Strategyforum (WS Municipalities in DK)	Welcome to Wadden Sea Nationalpark
	Report	1.1.2. Overview on regional initiatives on marine litter	NPV-DK	Report by NPV-DK
